

I CLAIM:

1. A sexual aid device, comprising:
 - a curved portion having a proximal and a distal end;
 - a substantially straight portion, said straight portion extending from said proximal end of said curved portion thereby forming an approximate J shape; and
 - mechanical means for causing movement of said curved portion.
2. The device of claim 1 wherein said movement is arcuate.
3. The device of claim 1 wherein said movement is circular.
4. The device of claim 1 wherein said movement is vibratory.
5. The device of claim 1 wherein said movement is an extending movement.
6. The device of claim 1 wherein said movement is a “come hither” movement.
7. The device of claim 1 wherein said distal end of said curved portion stimulates a female’s Grafenberg spot or G spot when the device is inserted into the vagina with said straight portion pointing away from said curved portion towards the female’s torso.
8. The device of claim 1 wherein said straight portion extends coextensively from said curved portion.

9. The device of claim 1 and further comprising a clitoral stimulation portion.
10. The device of claim 10 wherein said clitoral stimulation portion is a cup.
11. The device of claim 10 wherein said clitoral stimulation portion is textured.
12. The device of claim 10 wherein said clitoral stimulation portion vibrates.
